

## Veolia - Step 1: input data

|                     |                                                                                                                                      |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| <b>What</b>         | Every financial figure the capacity analysis may use, copied from the published documents. No calculation yet.                       |
| <b>How</b>          | Statements are read from the PDFs by <code>extract_statements.py</code> (no manual typing). Note figures are listed with their page. |
| <b>Source codes</b> |                                                                                                                                      |
| <b>FY25</b>         | Veolia consolidated financial statements at 31/12/2025                                                                               |
| <b>H126</b>         | Veolia half-year report at 30/06/2026 (amendment to the 2025 URD)                                                                    |
| <b>H124</b>         | Veolia half-year report at 30/06/2024 (amendment to the 2023 URD)                                                                    |
| <b>BRF</b>          | Capstone project briefing                                                                                                            |
| <b>Signs</b>        | As published. Statements: costs and outflows negative. Key figures: net debt and investments shown in brackets as in the report.     |
| <b>Colours</b>      | Blue = number copied from a document. Black = formula (Checks block only).                                                           |
| <b>Page</b>         | 'p.' = PDF page number of the file (not the printed page number).                                                                    |
| <b>Checks</b>       | The Checks block at the bottom of the Inputs sheet re-adds each statement. Differences of 1-2 are rounding (the reports say so).     |

## Veolia - input data (EUR m unless stated)

Blue = copied from the source document shown in column J. Nothing on this sheet is estimated.

| Income statement                                                               | FY2024   | FY2025   | H1 2025  | H1 2026  | Source              | Note |
